

Litter Grading Guidance

During a green flag assessment visit, assessors are asked to give a school a grading for litter. Only schools achieving a grade B or above will be awarded the green flag. Although the following photos are not of schools, they should give applicants an idea of what the assessor will be looking for.

Grade A: Litter free

Grade B: Mainly litter free, some small items

Grade C: Many small items with some larger ones (cans, fast food packages)

Grade D: Heavily littered with large and small items, accumulation at boundaries
